

Large Enterprise Aerospace & Defense Company

Introduction

This case study of a large enterprise aerospace & defense company is based on a December 2016 survey of Cyphort customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

“Cyphort’s Adaptive Detection Fabric provides granular insight into advanced threats in our network, allowing our Incident Response team to prioritize resources on the threats that really matter, thus saving us time and money.”

Challenges

The business challenges that led the profiled company to evaluate and ultimately select Cyphort:

- Purchased Cyphort for the following reasons:
 - Its strong detection of advanced threats hiding in web, email, and lateral spread traffic
 - Its ability to deploy across multiple sites and manage as a single system
 - It’s cost effective

Use Case

The key features and functionalities of Cyphort that the surveyed company uses:

- Uses the following in conjunction with their Cyphort Infrastructure:
 - Cisco
 - Juniper
 - Intrusion Prevention System
 - Other SIEM
- Uses Cyphort for the following:
 - Its web collectors that are positioned at their network perimeter to detect threats as they enter or exit their network
 - To integrate with their SIEM or other orchestration tools to provide additional intelligence around potential threats

Results

The surveyed company achieved the following results with Cyphort:

- Evaluated the following vendor before choosing Cyphort:
 - FireEye
- Rated Cyphort’s following capabilities when compared to the competition:
 - Performance: significantly better
 - Ease of use: significantly better
 - Accuracy: significantly better
 - Manageability: significantly better
 - Scalability: best in class
 - Support: best in class
- Saw the following benefits after deploying Cyphort:
 - Overall improved detection of threats that were able to get through your traditional security tools
 - Improved data protection of critical information

Company Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.

Company Size:
Large Enterprise

Industry:
Aerospace & Defense
