Cyphort Manager GUI Component

No

GUI Operational Use Case

None

Threat Score Impact

No

Integration Documentation

http://go.cyphort.com/rs/181-NTN-682/images/CYPHORT_SB1-bluecoat.pdf

Integration Demo

No

About Cyphort

Cyphort is a privately held cybersecurity company founded in 2011 and based in Santa Clara, CA. The company provides SMB and enterprise customers with the Anti-SIEM, an open, scalable software platform that combines advanced threat detection, analytics, and mitigation capabilities. The solution minimizes the cost and complexity of traditional SIEMs, while delivering immediate, actionable insight into security incidents for fast threat resolution. www.cyphort.com
